Ask Her How She Knew

NOAH BENNETT

Standalone, with a sequel coming

Menace in the everyday.

Frankie Doyle came to London for the anonymity of eight million people who never look up. By day she reads other writers' manuscripts. By night she works on her own, a thriller about a man who preys on the people the city has already forgotten. Then the people around her start going missing for real.

And the quiet, forgettable man who holds the door for her every morning has decided she is the most interesting person he has ever met.
